EDUCATION

UNIVERSITY OF TORONTO **Toronto, ON**
Bachelor of Science; Specialist in Computer Science Sep 2018 – Dec 2021

Relevant Coursework: Data Structures & Algorithms, Software Design, Full-Stack Web Programming, Database Design, Neural Networks & Deep Learning, Artificial Intelligence, Natural Language Processing, Systems Programming, Operating Systems, Video Game Design in Unity

PROFESSIONAL EXPERIENCE

MetaVision Labs **Toronto, ON**
Game Developer & Web Developer May 2021 – Present

- Developed a 2D game in **C#** and **Unity** and helped design the vision and implementation of game features
- Performed product design role and helped in launching prototype 3 weeks earlier than planned
- Partnered with other teams to tune content towards creating a better experience for players
- Secured up to $100K in funding for cloud services by registering with Amazon's AWS Activate Portfolio program
- Assisted in enabling Smart contracts in the Unity game and the company website, powered by Ethereum and **Web3.js**

CustomerBuds **Toronto, ON**
Full-Stack Web Developer May 2021 – Aug 2021

- Developed a full-stack website with a landing page and a backend for blog posts, using the **Django** framework
- Assisted in the design of the website and helped improve the user experience of the website

HiGarden – The Guardian App **Toronto, ON**
Game Developer Sep 2020 – Dec 2020

- Worked in an Agile environment with a team of seven to expand and deploy a planting simulator game, which would be integrated into Ontario's middle-school syllabi
- Added several new game levels and used design techniques such as object pooling in **C#** and **Unity**, and managed to significantly decrease the size of the game by 73%

PROJECTS (check GitHub for more!)

JOB APPLICATIONS TRACKER **Toronto, ON**
React, Node.js, Express, MongoDB Sep 2021

- Developed a full-stack web app with user authentication that allows users to add and track the status of their job applications, including what stage they are at and the recruiter information to be able to quickly send emails

ANSWER CORRECTNESS PREDICTOR **Toronto, ON**
Python, PyTorch, TensorFlow Dec 2020

- Used an ensemble of several algorithms such as K-Nearest Neighbors, Neural Networks and Item Response Theory, to solve classification problems such as predicting students' answers to Khan Academy quizzes

GAME CENTER **Toronto, ON**
Android Studio, Java, UML, SQLite Dec 2020

- Developed an Android app with 3 mini-games in it – a Math speed run game, a whack-a-mole game, and a card-matching game
- Implemented the app using various design patterns, and used a SQLite database to hold users' scores and assist in user authentication

SKILLS & CERTIFICATIONS

Languages: Python, Java, C, C#, HTML/CSS, JavaScript, SQL
Frameworks: React, Node.js, Express, Django, Flask
Technologies: Git, PostgreSQL, MongoDB, TensorFlow, PyTorch, Android Studio, Unity
Certified Associate in Python (Python Institute)**, Certified Data Scientist** (DataCamp)
